

SvenPad® Bookstyle (Black and Green) - Trick

Music for Your Hands. SvenPad® Bookstyle.

SvenPad® Bookstyle ups the ante by taking our innovative designs to the next level. A little bigger (4"x6" pocket size).

Hand crafted from scratch. With zero compromises.

With SvenPad® Bookstyle, we've kicked up the fit and finish to create a next generation SvenPad® that contains many small but groovy improvements inside and out.

This SvenPad® literally handles like a finely tuned instrument and opens like a book.

Our newest **SvenPad® Bookstyle** ups the forcing game by taking our world-famous designs and puts them on steroids.

An all-new, larger POCKET SIZE 4"x6" format, with a side-opening binding allowing easy handling.

These are destined to be the finest-handling and best-looking SvenPads® available on the market today.

Instantly notice that pages turn and flip more smoothly (because of our improved silver METAL WIRE binding, which does not corkscrew out).

Instantly notice the innocent, all-new cover design with 2 new colors (both black and green).

Instantly notice the 25% larger (4"x6") format; yet this baby will snugly fit in your back pocket.

Instantly notice an even larger writing area with our quality, custom-printed lined heavier paper (same as our KoD SvenPads®).

No one in the world knows more about genuine SvenPads® because we invented them!

The world's most insanely precision Svengali pads in a wide range of incredible styles. All sealed with our genuine hologram authenticity label.

SvenPad® Bookstyle has been in real world beta testing with industry legends like Luca Volpe, Lior Manor, Jon Stetson and Christopher Taylor.
