

Quiver (VDR) by Kelvin Chow

One of the most powerful utility device for close-up magic and mentalism. Highly versatile and practical. Ingeniously designed gimmick. Made by high quality leather. The purse can be handled by the audience. A must-have for close-up magicians and mentalists! Just imagine: - A handful of coins visually changes into a bill. - Magician asks an audience to grab a few coins at random and the magician can predict the exact value. - Instant vanish and transposition of small objects can be done with ease. - Bill switches done without sleight. These effects are just for your reference. You are free to create any routines you want!
