Menny Lindenfeld is well-known and Internationally respected for his clear and in-depth teaching that encompasses not only the smallest details, but also focuses with precision, on how each aspect of the method works... and even more importantly - Why? Each volume includes excellent tips on moves, angels, plus performance demonstrations with a real spectator.

*In **VOLUME #01** you'll learn the core principle behind **TRU™ Xtreme**, and how to use it for an endless number of effects.*

- *While a spectator holds your fingertip, a rubber-band visibly links ON & OFF your finger. The band penetrates through your finger in the most visual and impossible way.*
- *Make a RB visibly penetrate through any spectator's finger. (New method, different from the one taught on the first **TRU™**.)*
- *Cause a RB to visibly melt off and unlink from the spectator's finger.*
- *Choreograph the various moves into a powerful multi-phase routine.*
- *A new visual method to perform a Band-Through-Band effect, using two bands of contrasting colors.*
- *Volume #01 concludes with a homage to Menny Lindenfeld's original **TRU™**. Perform the CLEANEST and MOST VISUALLY-INSANE Finger-to-Finger-Jump effect ever created! (New method).*

*In **VOLUME #02** you'll learn another original **TRU™ Xtreme** method - this time using a Sharpie® marker and various other objects.*

- Learn the **CLEANEST** rubber-band-through-Sharpie® effects.
- Make a RB visibly link ON & OFF the center of a Sharpie®.
- Cause a RB to penetrate other objects such as: a thick marker, pencil, straw, fork, spoon, etc.
- Method variation with a thick RB.
- Demonstrate the effect with the neck of a borrowed beer bottle - while the spectator holds the neck-end.
- Perform **TRU™ Xtreme** with borrowed sun/eye-glasses. Make the RB melt through the temple - while the spectator holds the temple-tip.
- Choreograph the various moves into a multi-phase routine.
- Volume #02 concludes with a second, **ADVANCED TRU™** method using a Sharpie® and other objects - held by a spectator.

In **VOLUME #03** you'll learn another **TRU™ XTREME** method variation of the principle taught in Vol. #01.

- With your palm upwards and flat open, wrap a RB around all the fingers. As you pull the band, it visibly melts through - one finger at a time.
- Let a spectator himself pull the RB through your fingers!
- A reversed method variation. Cause a RB pass through one finger at a time - in reverse!
- Make a RB jump through the fingers as you lightly shake your hand.
- Cause a RB penetrate two fingers with one pull.
- Perform some of the moves and effects using the cord of borrowed earphones. (New method).
- Menny's all-time favorite! Cause a RB melt through your finger in **SUPER SLOW MOTION**. The visual effect of the RB slowly passing through the flesh of your finger looks **LIKE A CAMERA TRICK!**
- Volume #03 includes various multi-phase routines.
