

Refill Butterfly Cards Red (2 pack) by Ondrej Psenicka

"There are many new beautiful playing card designs. However, this design will blow your mind. I can't wait to explore the endless possibilities."

- Asi Wind

Thousands of people have been amazing audiences with the original Butterfly Playing Cards unique marking system and in-depth video instructions. Butterfly Playing Cards' marking system allows any performer to make miracles NOT possible with ANY other deck of playing cards.

Of course, after countless performances the deck will eventually wear out.

And thankfully **Refill Butterfly Cards** (available in packs of two or six decks) will save you money because we included a basic tuck box and no marking instructions. (Why pay for the instructions again?)

The **Refill Butterfly Cards** have a plain tuck with no special effects and contains a gaff card.

The cards themselves are identical to the original 2nd edition decks.

(However, just for fun the **Refill Butterfly Cards** outside packaging has an optical illusion which if photographed at a certain angle makes the box look transparent and empty.)

IMPORTANT NOTE: Refill Butterfly Cards do NOT include marking instructions or custom tucks.
