

## Fun Shapes

This Chinese puzzle is known as “Tangram”. It will allow you to break the ice with your spectators in a different way than usual. With the seven pieces of which it is composed in fact, you will be able to make numbers, animals and objects. In the supplied instructions 22 different compositions (of numbers, objects and animals) are shown, and you will be able to come up with many others of your own. • The wooden frame measures cm 11 (4,3”) on each side.
