

Red Stripe Playing Cards

We are excited to offer **Red Stripe Playing Cards**, from LA-based designer and magician, Omar Renfro. This is his debut deck. Inspired by the work of Pablo Picasso, each card was **hand-drawn** before being digitally cleaned-up and presented in its final rendering shown here.

The design comes from the concept of wanting a bold solid stripe in the middle to accent the dynamic movements in cardistry.

Those seeking to *WOW* an audience with flourishes and fans that are beautiful to behold will be thrilled with this deck.

"The deck is fully customized from the geometric back design to the custom arrangement of the spot cards, right down to the custom court cards and Jokers. Even the tuck interior is customized!"

Printed in Taiwan by the Hanson Chien Playing Card Co.
