

## Naked ESP (ZENER) by Michael Murray - trick

MindFX is proud to announce the release of '**Naked ESP**'. Realizing that my most favored ESP routines require little more than ten ESP cards, I set out to design a pocket **friendly** set of ESP cards that would build upon the foundations of my original 'Beyond ESP' deck.

What I created was an all new marking system which not only allows the cards to be read whilst in a spread condition, but also allows you to **instantly** locate any symbol from within the spread. To ensure longevity of use, these cards have also been printed on **100% plastic** card stock and come complete with their own custom designed tuck case.

With this package you will also receive a PDF booklet which details **two** of the most astounding ESP routines that you will ever learn (**this includes 'Sweet force of mine 2.0' by Peter Turner**).

To help inspire your own creativity, I even supply several matching gaffed cards which will open a whole new world of ESP routining possibilities. Among these gaffs is an incredible new gimmick which we are **especially** proud of!
