

CTB (Gimmicks and Online Instructions) by Alexander

Stefanus Alexander's **CTB** is a visual change from Bill to Bill or Receipt to bill.

This ingenious method allows you to change one bill to another, One Bill To Multiples or even a store receipt to cash for the ultimate recycling!

Imagine going up to a bar and buying a drink. You try to pay with a \$100 bill

The bartender asks "Do you have anything smaller?"

You pause for a moment and then just with a shake the \$100 bill visually changes in to five \$20 bills which maybe be freely shown both front and back with nothing to ditch or switch.

I wouldn't be surprised if you ended up getting the drink for free!

Included in the pack are gimmicks for UK, USA, Europe and China

CTB is easy to do and comes with a full tutorial video with multiple presentations and handlings!

CTB will sit neatly in your pocket or wallet and will always be ready to go!
