

## Tumi Magic presents **Delicious Change** by Jhony Zam - **Zaubertrick**

Audiences love magic where one object VISUALLY CHANGES into another.

With **Delicious Change**, you can transform a small pack of gum into a LARGE chocolate bar RIGHT BEFORE THEIR EYES!

This extreme visual change is perfect for performing for a crowd OR for a single person. The spectator(s) will see NOTHING even from a few centimeters away! You can create different routines with **Delicious Change**. Your limit is up to your imagination.

All materials were selected to present you with a long-lasting gimmick that you can carry with you for hundreds of performances.

Everything is detailed in the online tutorial.

Gimmick is 100% ready to use out of the box!
