

Skelstrument Playing Cards Printed by US Playing Card

Hear and feel the buttery soft flutter of **Skelstrument Playing Cards** as the cards move against each other... creating a rhythm every cardist and magician knows. So satisfying. The snappy sound when they are shuffled. The slightest whisper when fanned.

The purple and black bar on the card faces creates an incredibly striking design when the cards are fanned, squared or flourished... tying every card together like notes on a sheet of music.

EVERY element (pips, Courts, fronts and backs) on each card has been artistically drawn marrying the human skeleton, music, and the visual representation of sound.

Skelstrument Playing Cards pay respect to your fingers... your finely tuned instruments. Create magic. Create art. Create music.

Includes 2 gaff cards
