

DREAM BOX (Gimmick and Online Instructions) by JOTA

Imagine a gift box with multiple activities for the spectator to choose that allows you to predict a surreal experience that will be unique and unrepeatable!

DREAMBOX allows you to predict with a PRINTED VOUCHER a surreal experience chosen by one or more spectators.

How?

You give a participant a credential from the beginning of the act.

Then you ask the audience to make different choices about places, music, drinks and celebrities that, together, make a unique and unrepeatable experience.

At the end, you show that inside the credential there was a printed voucher with the exact choices they had just made!

It seems impossible but it is possible!

- No stooges, forces or changes.
- It is easy to do and you can predict all possibles combinations.
- It resets in seconds.
- It can be performed for a single person or a large audience.
- Choices can be made by different people randomly.
- No matter what they choose, the experience will be unique and unrepeatable and you will be able to predict it.

Includes a box with all the necessary elements for the act and an online tutorial video with complete routine and extra ideas.
