

Milk Pitcher Jumbo (Deluxe) by Amazo Magic

Here we present a large pitcher for the classic milk effect. Pour milk into a borrowed newspaper or a folded paper cone, and the milk vanishes!

It is a large-sized pitcher, with sections completely removable for perfect washing. There is no glue or sucking device inside it.

A silver band on the top makes it elegant and sparkling. High quality plastic measuring 18 cm wide and 20 cm in height.

Includes written instructions.
