

## **The Aficionado Fire Wallet (Gimmick and Online Instructions) by Murphy's Magic Supplies Inc.**

### **Effect:**

Imagine opening your wallet to retrieve a bill, note or card, just then, a large amount of flames burst from your wallet. You instantly close the wallet to extinguish the flame and when you reopen it there is nothing to see but an average looking wallet.

The aficionado has the look and feel of real leather yet uses no animal products. These wallets are hand made by highly skilled craftsmen who deal specifically in non-leather products.
