**- Alan Rorrison**

"Will Tsai has produced the cleanest and most impossible ring vanish of ALL TIME! Even Q from James Bond couldn't have devised a better way to vanish a finger ring."

### The Vanishing Ring

As a performer, we are always searching for the right tool to create real miracles. A magical effect that can mystify and enchant the audience.

What if you can vanish a borrowed ring, without ever touching it or even going near the spectator?

Imagine this, your spectator takes the ring off her own finger, she puts the ring into the box herself, touches it to make sure that everything is real, and closes the box. And that's it. She opens the ring box again, and the ring is already gone. Wherever and however you make her ring reappear, is up to your own imagination.

The Vanishing Ring was specially engineered for a TV program by master designers from SansMinds Creative Lab. SansMinds loved this so much it took them two and a half years to 3D simulate and fine-tune all the details of the device. SansMinds has finally decided to share this with the magic world.
