

Flat Pack Red (Gimmick and Online Instructions) by Jason Knowles

*"The **Flat Pack** appearance was pure eye candy, then Jason pulled the cards out of it and I could have punched him it was so good!!"*

- **Ben Williams**

"This is the ultimate 'Packs Small, Plays Big' effect!"

- **Eric Jones**

*"I've seen a lot of gimmicks out there. Some are ingenious but fragile. Others are sturdy but limited. **Flat Pack** is one of the few that has the best of both worlds: strong gimmick for strong effects."*

- **Jeremy Griffiths**

Created by the genius behind "Double Take," Jason Knowles created **Flat Pack** to be a surrealistic visual opener and closer that gets you in and out of your set with flair.

Imagine showing your spectators a neatly folded tuck case pulled from your wallet. With one move, the folded case expands from a crimped piece of cardboard to a fully functional box of playing cards. What's even more impossible to comprehend is that all 52 playing cards are kept flawlessly inside!

Flat Pack turns the ordinary action of pulling out and putting away a deck of cards into an impossible moment. Clearly the box is folded into quarters. Clearly it couldn't possibly fit a full deck of cards. And yet clearly it somehow does exactly that!

Finally, when you've wow'd them with enough overly ambitious or extraordinarily triumphant enough card magic, you simply take your cards, place them back in the tuck, fold it back up into your wallet, and wait as your audience gasps and stares at your final miracle. It's impossible for them to understand how those cards fit in that folded case. It's even more impossible for them to forget that moment of magic that you've just created.

What you receive in your box of **Flat Pack**:

- Fully made gimmick ready for you to use out of the box.

- Resets in seconds.
- Takes up little pocket space, packs flat plays big!
- An hour of expert instruction taught by Jason Knowles.
- A unique method to turn ordinary moments into something truly unforgettable.
- The ability to master and bend space!

Start strong, end stronger. Play it big with Jason Knowles' **Flat Pack!**

"Flat Pack is the best opener I have seen in a long time... It visually kicks the back of your eyes and sends you packing! It's a casual yet a professional piece of magic and perfect for all situations... I can't wait to start using this."

- Chris Webb

"Flat Pack is my favorite opener for table-hopping and walk-around! It LITERALLY packs small and plays big, and it has that perfect 'haha that's cute... Wait? WTF just happened!?' moment (twice). It's as if Jason Knowles and Tony Stark had a cardboard-baby. The playing card box equivalent to the Iron Man suit!"

- Kim Anderson

"Flat Pack is an amazing surprise to open any card routine! Can't wait to play with it!!"

- Tobias Dostal

"Flat Pack is truly something I will want to use every day. Clever in the mechanics and the construction. Absolutely hard hitting!"

- Think Nguyen
