

CTG Red (Gimmicks & Online Instruction) by Peter Eggink

Dynamo called it the best effect of Blackpool 2019: Peter Eggink's CTC project.

Peter's "hands off" approach to the "Coin Through Can" sold out in literally hours upon its worldwide release in 2019.

Through the year, Peter has been taking this concept and developed it even further only to come back better and stronger: a re-design of this fantastic concept now implemented in the classic "Coin Thru Glass" effect.

A classy, sophisticated version which will blow your spectator's minds. This is the ultimate "in the hands" experience that will create some long lasting memories.
