

## **Collard 2 (Gimmicks and Online Instructions) by John Archer**

**Collard 2** is a full five-minute comedy routine where you bring out a cuddly toy dog and tell the audience that it needs a name. The audience works together to create a random name (which really is a free choice). A spectator then takes a look at the dog's name tag on its collar... Amazingly, it has the freely selected name written on it!

**Collard 2** offers an improved method, built in collaboration with Levent to produce a routine so strong that you'd be barking mad not to perform it.

All gimmicks included. Instructional download.

Note: Stuffed animal not supplied.
