

## FRESH SNACK by Julio Montoro

Fresh Snack is the new release by Julio Montoro, where you can change a yellow M&M packet four times in the most visual way you can imagine, changing **not only the color, but also the sizes** of the final appearance.

The gimmick comes **already made** and you just have to add your favorite snack to do the final appearance, so you can **customize the effect** to your requirements for your video or show.

You will receive **a handcrafted gimmick** made with the most resistant plastic paper we've found, so we can make sure that your **gimmick will last you forever**.

This effect was created by Julio Montoro 5 years ago and it has been performed by **top TV magicians** all around the world. Now you can have the opportunity to perform this visual gem not only for your social media Friends, but also for your real live audience using a routine that Julio Montoro explains in the tutorial.

**You will love this effect! Let's make your magic more visual! This is Fresh Snack!**
