

## **HALLPASS by Julio Montoro - Kartentrick**

**Hallpass** is an ingenious device by Julio Montoro and James Anthony that lets you produce signed cards and predictions from within an ID holder in a clean and unsuspecting fashion.

Imagine at the end of your favorite signed card routine you point to a playing card that has been in full view from the very start encased inside your plastic **Hallpass** holder.

You slowly remove this card to reveal it's **THEIR SIGNED CARD!**

**Hallpass** also works with predictions, billets and much more, plus comes with modifications for USA, UK and EU currency.

**BONUS 1:** We've included everything you'll need to make up multiple gimmicks which can be switched in real time.

**BONUS 2:** The blackout module - a twist on the original routine allowing you to perform some mind blowing visuals and additional handlings.
