

## **Svengali Deck - Economy**

Here is our new Svengali deck with a great new design and a great new quality!

The magician shows a deck of cards to the spectators.

He invites a spectator to choose a card and put it back in the deck. Despite the card is lost in the deck the magician will incredibly find it in any place selected by the spectator himself.

You can perform many amazing tricks and with a breathtaking finale where the entire deck changes into the spectator's selected card!

Many baffling, but easy effects are explained in the instructions.

- Instructions for 10 tricks included.
