

## Danger Box Illusion

Danger Box Illusion is a powerful prop that allows you to perform the burned shoe illusion, vanishes, reappearances and so much more. NO assistants needed.

### Basic Routine

The magician places a borrowed shoe into the Danger Box to be cleaned by radioactive waves (or anything else that fits your story). Instead of being cleaned though, it's transformed into another shoe or even burned by the radioactive waves (this effect is fantastic if you combine the Danger Box with a mini smoke machine, not supplied. The burned shoe is also not supplied as you can make it by burning your old one).

As a consolation, you offer the spectator a chance to select a shoe from a flight case that has been in full view from the beginning of the effect. A ton of different shoes come out but the spectator isn't impressed until the last shoe is impossibly their own shoe.

- Extremely easy to perform.
- No false moves. The shoe is truly placed inside the Danger Box and vanished.
- Perfect for all ages.
- A ton of comedy moments for both children and adults.

As an added bonus, the included stool makes the Danger Box quite versatile. You can use it for a variety of other appearances and disappearances such as those cell phones, glasses, purses, shirts or any other small object. The possibilities are endless.

### What you Get:

- The Danger Box.
- Specially-designed stool (color is natural, not black).
- Flight case.
- English and French video instructions.
