Abandoned RED by Dennis Reinsma & Peter Eggink

Abandoned is not just an effect: this utility card box is cleverly constructed and allows you to secretly control and retrieve the spectator's signed card instantaneously!

Here are some ideas:

Card to...

Have a card selected, signed and returned. Show the box empty and place all cards in the box. In just a blink of the eye you have retrieved the signed card, ready to be loaded into your wallet, mouth or pocket!

CAAN:

Have a card selected, signed and returned. Show the box empty and place all the card in the box. You have now made it "sleight of hand proof"! Have them name ANY number and count cards from the box one by one. Stop at the selected number and turn this card over. It is the signed card!

Use **Abandoned** as a force

Use **Abandoned** for a fun rising card effect

Use **Abandoned** for... The possibilities are only limited by your own imagination.

Comes complete with the cleverly gimmicked Bicycle card case.

Available in red or blue.

Supply your own cards.
