

## Skymember Presents: NOMAD COIN (Morgan) by Sultan Orazaly and Avi Yap

CGI level visual magic has been taking the magic industry by storm lately, but it is either too angle sensitive or insanely hard to pull off in real life situations. What if we told you that you can perform a super visual and impossible coin change, that doesn't require any knuckle busting sleights?

We at Skymember presents are proud to be able to bring to you, **NoMad** coins! Imagine holding a coin by its edges fairly at your fingertips. Without any unnecessary movements, you simply release the coin and it VISUALLY TRANSFORMS into another coin in MID AIR! Oh and right, did we say NO COVERS? Yes!!! It is as it sounds. A visual miracle! Not only that, you are able to IMMEDIATELY show BOTH sides of the coins right after the change! You can hand the changed coin out if you really want to!

First conceptualized by Sultan Orazaly, then finalized by Avi Yap, **NoMad** coins is an insanely visual piece of magic, yet SUPER easy to do! You just simply release the coin, and the rest is done for you! Coming with a few routines from the mind of Avi Yap, you will be performing this miracle shortly after receiving the package!

What you'll receive is a beautiful, custom packaging that holds your gimmick as well as a matching ungimmicked coin. Available in the options of GOLD or SILVER Bitcoins or a US dollar-sized coin. You will also receive some items in case you'd like to make more **NoMad** coins!
