

Sharpierce by Maxence Vire and Marchand De Trucs - Sharpie Card Stab Zaubertrick

Sharpierce is the simplest and most powerful effect you'll see this year!

From the creative young magical talent that is Maxence Vire comes the perfect trick for close-up, strolling and parlor performances...

Imagine...

A spectator chooses a card, signs it, and returns it to the deck.

You're now going to show your audience the best Card Stab they've ever witnessed - using your Sharpie.

As all the cards in the deck fall through the air, you "accidentally" plunge your Sharpie into your thigh...

You pull your Sharpie out, place your hand into your pocket, and remove your spectator's signed card, which now has a hole running right through the middle.

With **Sharpierce**, you can perform a range of routines, including a Card Stab, a transposition and an appearance. Maxence Vire will explain every element of the three effects, which are ready to go straight into your set.

Why you'll love it:

- Highly visual
- Easy to perform
- High-quality, multi-purpose gimmick that can be used for a wide variety of effects

What you'll get:

- A custom-made Sharpie
- An additional gimmick
- Video explanations

Bonus material

You'll also receive a twelve-minute-long video from Greg Wilson, showing you a range of ideas using the **Sharpierce** gimmick.
