

All Alone by David Regal - Kartentrick

Card-Shark presents their first collaboration with David Regal!

The spectator names any card.

You spread the deck between your hands and the freely named card appears face up in the face down deck. You turn the cards face up, revealing the other cards to be completely BLANK.

No force! (all 52 cards and Joker can be named.)

No "Double Decker!" (Regular playing card stock.)

Red-backed Phoenix deck with standard indexes.

Includes video instructions by David Regal.
