

Rainbow Monte (Close up) by Juan Pablo - Kartentrick

His classic Monte routine, now in close-up size!

A three-phase routine with a kicker ending: The magician starts with three blank cards and one Ace. The cards also have different colors on the backs so they are easier to follow. Even being this fair, no one can guess where the Ace is!

At the end, the magician reveals that there were three Aces and only one blank card!

You can give everything to the audience to examine at the end.

With this routine, Juan Pablo has fooled some of the top names in magic!

New design on the cards -- now they fit in your pocket!

Only 4 cards. No gimmicks.

Very visual.
