

Christmas Puzzle by Tejinaya Magic - Zerissenes Geschenkpapier wiederherstellen - Weihnachtstrick

The magician shows a stack of brightly-colored Christmas cards, as if pieces of a puzzle. These are shown one at a time and placed back into the stack. The cards are scattered and bundled up... and, the next moment... the individual cards have turned into a single big Christmas sheet!

This is very visual and quite beautiful - and a big surprise for your audience!

At the moment when the large Christmas sheet appears, your audience will yell, "Wow!" This trick makes the performer look especially good!

Easy to do.

Comes with cards and online instruction.
