

Limited Edition False Anchors 2 Playing Cards by Ryan Schlutz - Pokerdeck

Ryan Schlutz is back with the second iteration of **False Anchors Playing Cards**. The brand new nautical back design pays homage to the classic Bicycle style, giving the cards a familiar feeling from the first time you use them.

The Ace of Spades and matching Jokers have also been customized, giving the cards an extra touch of class. We've left the rest of the faces untouched, matching standard Bicycle faces, so you can make use of the gimmicks you already own. We've even included two mis-indexed cards for monte routines along with a double-faced Joker/Ace.

The US Playing Card company makes all our decks, right here in the USA. Printed on durable and flexible Classic Stock with Magic Finish, the combo gives an unrivaled luxurious feel straight from the box.

We've paid a lot of attention to details we're sure you'll appreciate. Many additional secrets lie within each pack, waiting to be discovered! Start your journey today.
