

Wonder Pop by Gonalo Gil and Danny Weiser produced by Gee Magic

Make a lollipop appear from bubbles!

The Magician explains that he's going to show how lollipops are made. He takes a bottle and blows through a circular ring to make some soap bubbles in round ball shapes. Magically he is able to catch one of the balls, as it has turned solid! He attaches the ball to a stick, he waves the stick, and visually it becomes a real lollipop that can be given to a member of the audience.

Wonder Pop by Danny Weiser and Gonalo Gil. Produced by Gee Magic. Created by Danny Weiser and Gonalo Gil, **Wonder Pop** is geared mostly towards children.
