

## My Magic Money by Mickael Chatelain

An end of the year novelty!

Mickael is well known for regularly offering us visual and innovative effects. Once again, he offers us today something incredible!

Incredible because you will always have it on you! In your wallet, ready to show!

Unbelievable because you get no fewer than ten effects explained!

Incredible because effects with money - bank notes in this case - always have a huge impact on the spectators!

And finally, incredible because we are sure that you will find other ideas, other effects with this gimmick!

**MAGIC MONEY**, what is it about?

Imagine a very simple gimmick, with an even simpler use. Add to that highly visual effects, you get **MAGIC MONEY**!

Appearances, transformations, permutations, disappearances, changes etc...

Everything becomes possible with **MAGIC MONEY** and so easy!

You can even chain different effects together to create a routine of several minutes in your close-up.

One thing is certain, **MAGIC MONEY** is not done surprising you!

Here are the effects explained, effects that you too will present after only a few minutes of use...

### 1 - **VANISHING BILL**:

Show two bills: 20€ and 10€.

Place both bills in your hand.

If you withdraw the 20€ bill, you still have?

The 10€ bill normally! Open your hand, it's empty!  
Then produce the 10€ bill or whatever you want.

## 2 - MISLED BILL:

A great classic in a new version. A real fooler!  
The 20€ bill penetrates the 10€ bill in full view!  
Of course, at the end, the 10€ bill is perfectly INTACT! A real mystery!

## 3 - MISDIRECTION:

In the right hand, the 20€ banknote, in the left hand, the 10€ banknote!  
Are you sure of it? An ultra ultra fast MISDIRECTION effect! Your spectators will LOVE it and will want to see it again for sure to make sure they didn't dream!

## 4 - SNAP:

Show a 20€ bill to your spectators on both sides...  
Fold it in four in front of them and hold it with your fingertips between thumb and forefinger.  
In a fraction of a second, the bill changes into a 10€ bill...  
A flash transformation a few centimeters from the eyes of your spectators!

## 5 - AGAIN:

My favorite!  
A 10€ bill and a 20€ bill are placed in your hand...  
Visibly remove the 10€ bill!  
Normally, you still have the 20€ bill in your hand...  
Open your hand and show that the 10€ bill has come back again as you now have both bills in your hand!  
Now remove the 20€ bill...  
Normally you still have the 10€ bill in your hand.  
But NO ! Open your hand and show that you have, not the 10€ bill, but rather the 20€ bill in your hand!  
Close your fingers again on the 20€ bill... 20€ ? Are you sure?  
Open your hand and show that it is the 10€ bill!  
Totally crazy! You're going to make your spectators sick!

## 6 - THE JOURNEY:

Still with your two bills... 10€ and 20€ Place the 20€ bill in one hand and the 10€ bill on the table .Slowly pass your hand over the 10€ bill on the table so that it immediately changes into a 20€ bill!Open your hand proving that the bills have indeed changed places.

## 7 - DEAL BILL:

The famous deal bill effect with 2 banknotes!

Show them well to your spectators... one 10€ and one 20€ bill.

Place a bill in each of your hands and invite your spectator to find the 20€ bill to win it...

Of course, you can present it as many times as you want, he will never win...

An incredible effect on children believe us, parents and children will go crazy with this impossible DEAL!

## 8 - BIM:

Show your 2 bills and your empty hands!

Close your hand and turn it palm down.

With the other hand, show two bills, a 10€ bill and a 20€ bill ...

A spectator will name either a bill (ex: 10€).

Hit the back of your hand with the two bills...

On sight, the 10€ bill disappears! Open your hand, and there it is! BIM! A dazzling passage through your hand...

## 9 - BIM 2:

If you can make a banknote pass through your hand as in the BIM effect, you can also make the banknote go up on the back of your hand...

2 banknotes and your empty hands!

Place the bills in your closed fist!

Turn your hand over, palm down.

Rub the back of your hand... suddenly one of the two bills appears! Open your hand to retrieve the second bill!

By combining BIM and BIM2 you will make your audience completely BONKERS!!

## 10 - MONEY SWITCH BILL

A piece of paper or a 10€ bill turns into a 20€ bill!

A clean and super fast transformation that your spectators won't forget!

Fold slowly a piece of paper or a 10€ bill, for example...

The spectators look, look... but it's already too late!

In front of their eyes, the paper or 10€ banknote has been transformed into a real 20€ banknote that you can show on both sides!

The strong points:

- No manipulation
- The gimmick takes care of everything!
- Reset immediately.
- Always on you to fool your friends!
- Imagine other effects, other routines!
- Unbreakable!

The simplest things are often the most complex to set up, MAGIC MONEY, although very simple, will be a real mystery for your audience.
