

## Canvas by Luis Olmedo

You take the deck out of its case and show a completely blank deck, spread it clearly on the table and push four cards forward.

The four blank cards are brought together and with a magical gesture, they transform into four picture cards.

But there's more! The rest of the deck has turned into a regular deck of cards.

In **Canvas** you will find the perfect opener for your show or a very powerful routine to do anytime.

Created and manufactured and used as an opener in all of his performances by Luis Olmedo (Close-Up Magic Award Winner in Spain)

Easy to do.

A miracle!
