

## Orbit V8 Playing Cards - Pokerdeck

Welcome to Mars.

Taking every note from **Orbit** editions before it, we're excited to unveil the newest iteration of the iconic **Orbit** deck. Inspired by the spirit of space exploration and the towering Martian mountains from beyond our atmosphere, the **Orbit V8** boasts a wide gamut of orangish navy colors while simultaneously commenting on how far we've explored into space, and where we've yet to go.

The Orbit crew can be pictured near the rover on the back design amidst the mountains.
