

RUBIK RHUMBA by Merlins

The magician cleanly fans out four playing cards. The cards faces are shown and each card has a full color image of a mixed up Rubik cube on it. The cards are squared and given a shake. The cards are shown again and amazingly the cubes are now all FULLY SOLVED! Two of the cards are handed to a spectator to hold. The magician squares his two cards and uses them to tap the spectators cards. When to spectator looks at their cards the cubes have vanished! When the magicians cards are shown there are two cubes on each card! The cubes have transferred by magic.

This is a great card effect with a brilliant theme, Rubik magic is so popular right now. This effect is super clean and easy to do
