

## **Rubik GO by Juan Pablo - Rubiks Würfel Zaubertrick**

**Rubik Go!** A modern version of a classic using a Rubik's cube.

You can make a real Rubik's cube travel super visually from one paper bag to another.

You can also make the cube disappear inside a paper bag and then reappear inside a woman's purse, inside a hat or anyplace you prefer.

The method is simple and the magical effect is very visual and direct.

It can be performed in children and adult shows. It can also be a part of a longer Rubik's magic routine.

You receive a real Rubik's cube plus a gimmick that will allow you to create this miracle.
