

Alibi by Kaan Akdogan and Mark Mason - Blau

Imagine a mystery box that's **NOT** a box.

Imagine a prop that goes **EVERYWHERE** your mobile phone goes.

Imagine a gimmick that looks **NOTHING** like the gimmick

"I know it's hard to **IMAGINE**, right"? **YET ALIBI IS ALL THESE THINGS.**

ALIBI is a custom-made gimmick that slots right in amongst your personal credit cards, driver's license, business cards, etc. Even though your Alibi gimmick sits in full view it's **NEVER** seen.

You start by asking your spectator, "Would you like to see a really good trick?"
OR an **ABSOLUTE MIRACLE?**

They will ask for the miracle (They always do!)

Any card is selected and signed, then lost in the deck. In the blink of an eye, you magically find their signed card.

You offer to repeat the feat, once again burying their card into the deck, only to find it quicker than it was lost.

You now say "This is easy, anyone can do it. Wouldn't it be a really good trick if you found your own card?" They now try to find their own card. Of course, they fail miserably.

"Oh wait you asked to see the **ABSOLUTE MIRACLE**"

You now pick up your mobile phone, which has been in full view all the time and **NEVER TOUCHED.**

Hanging from the credit card holder on the back of your phone is **ONE SMALL FOLDED CARD.** The card is removed and handed to the spectator. They unfold the card, it's their **SIGNED CARD! AN ABSOLUTE MIRACLE!**
