

## **Scotch & Soda - Half Dollar + Mexican Centavos - Münztrick**

### **EFFECT 1**

Show two coins, a half Dollar and a Centavos, and hand them to a spectator who will

keep them closed in his fist. Ask him to bring both hands behind his back and here to put

one coin in each hand. Then have him give you back the half Dollar. When he opens his

hand, incredibly the Centavos will have vanished, and in its place there will be a completely different coin.

### **EFFECT 2**

Show two coins in your left hand, the half Dollar and the Centavos. Close both your hands.

When you reopen them, the Centavos will have magically jumped from your left hand to

your right!

- Made well!
- Supplied with the special coins, also explanations for the two above routines. With a little imagination you will find many more.
