

## Cherry Casino - McCarran Silver - Pokerdeck

The clean lines, monochromatic look of the **Cherry Casino (McCarran Silver) Playing Cards by Pure Imagination Projects** is incredibly modern and classy.

Cherry Casino Playing Card line was designed by Sam Devins with simplicity and clarity. Letting the magician and the cardist shine.

No unnecessary detail.

No pretentious glitz, just a slight shimmer of McCarran silver reflecting the light. Rather than concealing with ornamental facades...the simple white swoosh intertwines the jackpot cherries.

The inherent beauty is visible and celebrated.

As with any trusted tool, the truth of its quality is evident.

The thin crushed Bee stock from U.S. Playing Card Company is snappy; yet feels so comfortable in your hands.

But like concrete, **Cherry Casino (McCarran Silver) Playing Cards** will endure the test of time.

The double backer and blank face are your gadgets of choice as you spring into action.

Cherry Casino Playing Cards are always solidly here for you when you need them.
