

## **Victorian Coins and Glass by Kainoa Harbottle and Kozmomagic - Münztrick**

This is Kainoa's pet routine, and it is a real-world wonder. If you've seen him lecture or perform, chances are you've seen him do it. Whether table hopping or on stage, performing for three people or 300, Victorian Coins and Glass is strong, interactive coin magic at its finest.

Includes instructional DVD with the complete routine as well as additional ideas and live performances (1 hr 22 min). Also includes the glass. You provide the coins and that extra something special.
