

Marvelous Silver Twenty Twenty - Pokerdeck

Marvelous Decks Presents: **Twenty Twenty**

The Year that Turned the World Upside Down

Standard Silver tuck

The tuck features luxurious glittery navy stock with silver and holo foils. Standard silver tuck is limited to 660 decks. This deck is also available in a standard red tuck which is limited to 250 decks. Both decks feature same custom card backs and custom faces.

Trying to come up with an idea for creating a card deck that would be fun, memorable, and collectible, we couldn't think of a better subject than the year 2020: those twelve months when the entire world was turned upside down.

So, as a tribute-a physical memorial, we created this deck to commemorate a year that tried our planet.

When it came to illustrating the historical year, while mourning for the pain and loss of our fellow humans across the planet, we wanted to focus on the bright lights of the 12 months that tested us all.
