Time to mark the passing of flesh and bone, and the arrival of a new age in a deck that pays homage to the beautiful indestructibility of machines.

Time has long been ticking on humankind's domination. Now sound the alarm and bow to the glory of a new chapter. This deck of its time, is ahead of its time, yet harks back to the roots of the man-made automatons who will soon be masters. The backs a beautiful maze of the cogs, gears and wheels of progress, meticulously detailed like the machinations of a gloriously golden Victorian pocket watch, its stunning intestines laid bare.

The contrast of stark dark and glorious gold denotes the transition from man to machine. The bright white sheen and blood red hearts and diamonds dispensed with. In their stead, the future depicted in two-tone glory. The binary language of the robots. Matte black and gilt-edged gold.

Treasure this. For here is a deck with hearts of gold. Spades, Clubs and Diamonds too. A revelation to mark an evolution, delivered on the highest grade stock. A performance deck that, when dealt, slides as smoothly as the cogs of a well-oiled machine will turn.

Release the deck from its industrial chic tuck. Examine the intricate detailing of face and back. Find the hidden switch and with a flick, the designs on these beautiful works of art will surely stir and whir into life. Gears will grind. Cogs will turn.
