

Espionage Wallet by Kieran Kirkland and Alakazam Magic - Card to Wallet

Alakazam Magic are Proud to present Kieron Kirkland's Espionage Wallet

Kieron along with the help of Daniel Young created what many magicians have hailed as the holy grail of wallets! The Espionage is a secret weapon that even James Bond would be thrilled to own. Kieron has taken elements from Peter Nardi's world famous Assassin wallet & Infinity wallet and added some incredible new features. Making The Espionage the most feature packed mentalism/magic wallet ever.

Just one of the problems Kieron & Daniel solved was "how to have a SUC function in a wallet when you have your money in it". Kieron & Daniel not only solved this problem but did it beautifully. It's a real "why didn't I think of that moment"
