You can show as many routines as you want because it's erasable! erasing is very simple - you can just use a wipe we provided in the package.

The possibilities are incredible, it can be used for comedy magic to evoke emotional responses or use for create real dramatic moment

One of possible routines:

### **Luck/COVID-19**

You ask a spectator to choose their future for the next year; you are showing 5 boards with five numbers on it. The spectator freely chooses any number from one to five. You show to the audiences that spectator's choice was the word "luck", but under all the other numbers there was... COVID-19

If desired you can also perform the effect with all the number off of the boards. You can use either the supplied plastic holders (which gives you an additional effect with the numbers) or any holder at all such as notebook holder. Or if you wish you can simply put the cards next to any object on your table. You can make any single card change, whether they are in the foldable clear plastic holder or on the table next to an object!

The POWER advantage of this gimmick is that you can activate it whenever you want and it is absolutely invisible to spectators. It's "locked" until you've unlocked it! Everything comes in a elegant custom made velvet protection bag to protect your entire set.
