

Mini Cups & Balls by TCC - Becherspiel

Background

The Cups and Balls is one of the most timeless of all magic effects. For over two thousand years, it has been one of the effects used by magicians and street performers to mesmerize audiences and to demonstrate their skills.

Since 2017, the TCC PRESENTS Artistic Cups and Balls set has gone through two generations of updates. The exquisite workmanship is not only loved by our friends in magic but even lay audiences will be attracted by their appearance.

Nevertheless, Magic is always improving and innovating, and more and more of our friends in magic are also eager to see more aspects of our cups. But how else can you present the cups and balls?

The number of existing publications and materials available on the subject of the cups and balls are incalculable. So, why don't we go back to the prop itself? With this idea in mind, and after six months of development, we finally present to you today, the all-new TCC PRESENTS **Mini Cups and Balls**.

Routine and Effect

Apart from thinking that it looks cute, the first thought most will have is, how does one perform the **Mini Cups and Balls**?

In fact, you can perform a variety of moves with the Mini Cups and Balls. Vanishes, transpositions, transformations, and so on. Most of what can be achieved by regular-sized cups can be done by the mini cups. You could perform one-handed if you wished, or perform a 3 shell game routine.

For casual close-up performances or even smaller sidewalk shows, the mini cups and balls may be a suitable, practical, and portable alternative compared to the traditional cups and balls.

For this, we have even designed a high-integrity storage box that fits all the props you would need to perform the mini cups and ball. Bring the cups and balls effect closer to your reach.

Process and parameters

The TCC PRESENTS **Mini Cups and Balls** are made from specially selected high-quality brass and professional-grade precision production technology. The surface is fully treated to give an appearance of an antique bronze finish to give it a subdued look, yet further enhances its exquisiteness.

We have redesigned the measurements and proportions of the cups, matching them with red rubber balls and crochet final load balls. The shape, proportions, and color finish gives the illusion that the cups are smaller than they are. Although mini in size, it plays big.

Included with your set is a meticulously crafted vegan leather storage case, that functions both as a storage case and a display case, to display its uniqueness more prominently.
