

Drawer Box - Net - Zaubertrick

Make anything you wish appear from this fantastic box!

Open the draw and show it empty. Close it, reopen it and ... it will be full of sweets, silks, sponge balls or other items!

Different than many other drawer boxes for two reasons:

- on the front there is a net that allows you to see the inside empty when the draw is pulled out;
- on the upper part there is a door that allows, if desired, to take out from the top the production material once the draw is closed.

- The box measures, 25.5 cm (10,03") x 14 (5,51") x 14 (5,51"). The production items are not included.
