

Stripper Deck by Royal Magic - Kartentrick

A card is selected and returned to the deck. The magician then lets the SPECTATOR shuffle the deck completely losing their card in the middle of the pack. The deck is then handed back to the magician who cuts the cards one time and the selected card magically rises to the top of the deck! The card is then placed back in the middle of the pack and shuffled again by the spectator. Magically the magician takes the pack and removes the spectators selected card right out of the middle of the deck! This effect can be immediately repeated with a different card! Perform incredible feats of card magic which will make you look like a professional sleight-of-hand artist in just minutes.

Over 125 additional tricks are possible with the instructions from the booklet [101 Tricks with a Stripper Deck](#) (available separately.)

Color choice not available.

Note: *Card backs are NOT Bicycle as shown on outer packaging. They are Royal card backs.*
