

Orphic Business Card Size in Leather by Lewis Lé Val and The 1914 - Peek, Autausch und Karte zu Briefftasche - Zaubertrick

ORPHIC [awr-fik]

Adjective

Mysterious and entrancing beyond ordinary understanding

Orphic is the ULTIMATE inconspicuous every-day carry wallet for the modern mentalist and magician.

Peek, switch and load like a boss!

Designed by Lewis Le'Val and crafted in real leather, **Orphic** takes classic hidden wallet functions and reengineers them in ways NEVER seen before in a magicians' wallet.

What's more, there are NO moving parts to break or go wrong. **Orphic** is as simple (yet genius) as it gets.

Hidden inside is:

1. The most psychologically deceptive peek EVER applied to a wallet.

When Lewis first shared his design with the wallet makers, they initially said it couldn't be done.

2. A bold yet stunningly simple switch.

If it fits in the wallet, you can switch it (and there are no extra flaps).

3. A super-simple secret loading chamber.

For predictions, revelations and even signed playing cards.

Orphic ships with exclusive access to a MAMMOTH instructional video series packed with over three and a half hours (!!!) of killer material for both mentalists and magicians.

From the creator, you will learn:

- Not one, but FIVE invisible peeking methods.

- Two insanely powerful drawing duplication presentations
- Probably the EASIEST serial number divination in the world

From magician Craig Petty, you you learn:

- The CLEANEST card to wallet in existence (WITHOUT palming!)
- A NAMED card to wallet
- A diabolically baffling card-under-wallet routine with a jaw-dropping finale

And SO much more!

Orphic comes in two sizes: **Orphic** and **Orphic Plus**. Both have identical features and pockets. The ONLY difference is Orphic Plus is 1cm wider which may be advantageous for card performers wishing to make secretly loading poker sized playing cards significantly easier. However, everything you learn can still be performed with BOTH. The choice is yours.

Select your preferred size now and begin performing miracles IMPOSSIBLE to achieve with ANY other wallet on the market!
