

COLOR MATCH by Tony Anverdi - Farbzeichnung duplizieren - Vorhersage-trick

Introducing Anverdi's COLOR MATCH.

DUPLICATE the **EXACT** colored drawing your audience member has created, plus **SO** much more! Read minds with a press of a button.

Anverdi's **Color Match** pens can now be placed in ANY cup, glass or pen holder! You can even have your audience members place the pens in their shirt or pants pocket...or simply lay them flat on a CLEAR glass table.

Read minds with 100% accuracy, 100% confidence and NO FALSE SIGNALS... for unlimited possibilities. Go way beyond the traditional COLOR MATCH effect.

Murphy's Magic has produced the most up-to-date, innovative version of Anverdi's legendary COLOR MATCH effect.

"This is simply the best version available...with so many improvements but beyond the obvious, this is an incredibly versatile tool that simply has to be seen & experimented with to fully understand the possibilities. Yes, it's a fantastic routine with pens, but step outside the box and set your mind free, and it will be in overdrive with ideas."

- Marc Spelmann (X)

"Murphy's did it again! The engineering of Anverdi's Color Match is BEYOND impressive, many options and possibilities, impressed is putting it mildly! I have owned every form of the Color Match effect (including original versions from Anverdi from the mid 1980's)...and this one is the absolute best!"

- Chuck Caputo

REVOLUTIONARY TECHNOLOGY:

Extremely strong signal distance! Anverdi's **Color Match** uses the New Multi-Directional "Alien" technology so you can perform with 100% confidence!

NO FALSE SIGNALS:

If someone picks up a pen, then quickly changes their mind, the receiver will let you know of the change! The "original" pen they picked up will remain "Active" so if picked up again you will be alerted! Once a pen has been used by the audience

member, it will NOT accidentally trigger again!

Duel-Functioning, Multi-Directional Technology allows you to access these safety features in ALL performance settings. (Plus the low battery alert will let you know if a particular pen needs a new battery.)

PERSONALIZE IT TO YOUR PERFORMANCE STYLE:

Easily change your preferences! Choose your signal type (Vibration, Multi-Color LED Light or Simultaneous Mode). Choose your vibration level (Soft, Medium or Hard) and your pen's Smart-Sensitivity level! Plus, customize how you want to use it (includes removable clip and arm/ankle band).

INCLUDES:

- 6 Pens (Red, Blue, Green, Yellow, Purple, & *Black)
- Built-in Safety Ink Barrier (Prevents Ink from getting into the e-Pod system!)
- Removable e-Pods (For easy battery change --as well as BONUS effects)

ROUTINES/ONLINE INSTRUCTIONS:

Includes 2.5 hours (12 routines + BONUS ideas) of in-depth online instructions, which barely scratches the surface of what you can do with it!

- While your back is turned, your spectator freely colors in 5 different shapes with ANY marker they want. In perfect synchronicity, the colors they chose perfectly match the colors you chose!
- While your back is turned, the spectator freely selects any color marker and places them in different places on their body. Little do they know, EVERY action they make has been meticulously influenced by you.
- A Which Hand effect where you'll read your spectators' minds 3 times in a

row and finish off with a prediction to prove all their thoughts were predetermined.

- Engage multiple spectators in a mind-blowing and fooling CAAN that you'll instantly add to your close-up or stage act.
- Perform a 5, 10, or even 15-minute highly engaging murder mystery act, where you play detective and the audience makes all the decisions. So much fun, your audience will believe you are Sherlock Holmes.
- While blindfolded, 5 spectators each select a card and keep it hidden from everyone else. They also secretly choose a color marker. Without you ever turning around or taking the blindfold off, you can reveal which card and which color each spectator is merely thinking off.
- 5 spectators mix and freely select a cup with a secret hidden inside. They also mix, shuffle, cut, and select a face-up card all by themselves. Finally, the entire deck is revealed to be made up of different colored back designs. And, the spectator's chosen card PERFECTLY MATCHES the color of the hidden object in their previously freely chosen cup.

PLUS...BONUS ideas and routines from Titanas, Craig Petty, Luca Volpe, Menny Lindenfeld, and Marc Spelmann (X).
