

HARRIBO by Lord Harri and Saturn Magic - Ring erscheint in Haribo Verpackung

"A mouth-watering ring to impossible location with a sweet twist!"

Introducing Lord Harri's tang-tastic take on the vanishing ring plot.

You'll be expertly taught a wide range of brilliantly natural handlings and presentations which will end up with a spectator's borrowed ring vanishing right before their eyes and turning into an iconic Haribo ring.

It's both hilariously fun and charming - watch their eyes light up in disbelief as you produce a real sealed pack of Haribo sweets and see their ring inside!

The magician rips open the bag and pours the contents out of the bag into the hands of the spectator. Their ring lands in their hands, and they also get to eat the sweets! Everything is examinable. Haribo is super fun for all ages, is very easy to perform and gets the sweetest reactions.

You'll receive Lord Harri's delightful routines and everything you need to perform this captivating effect right out the box including a couple of Haribo bags to get you started and a custom-made gimmick that will get your ring where it needs to be faster than your spectator(s) can say "Haribo".

Haribo is a fresh alternative to your existing ring to impossible location / nest of wallets / ring flight and something that leaves a great taste in everyone's mouths.
