

## **Transform8 by John Morton - Tuch zu Billardkugel - Aufsitzertrick**

Who needs silk-to-egg when you've got John Morton's silk-to-8Ball!?

Get ready to **Transform....8!**

Not just a quick trick shot... a full, highly entertaining close up, cabaret and stage routine.

First, you impress your spectators by transforming a napkin into an 8 Ball.

Then you trick them into a false sense of security by hilariously showing them how you did it (a classic gag).

But... just as they begin to stop taking your magic seriously, you hit them with a second transformation that produces a real, solid, heavy pool ball!

What did I just see!?

Was this an illusion!?

Was the pool ball real all along!?

Was this real magic!?

This modern take on a classic is guaranteed to snooker your spectators minds like never before. All the joys of silk-to-egg without the cracking!
