

MORPHED by DARYL - Kartentrick

MORPHED is a stunning effect where you create an individual piece of art right in front of their eyes!

Two separate playing cards are selected and cleanly displayed on both sides. Slowly and fairly, the two cards are pressed together and "morphed" into one very bizarre looking card showing the two different suits and values on its face! This very special magically created card can be completely examined or even given away for an unforgettable souvenir!

MORPHED comes complete with a specially printed poker size red Bicycle Rider backed Gimmick (printed for us by the U.S. Playing Card Company) and detailed Online instructions.
